REPORT OF THE SECRETARY OF STATE.

OFFICE OF THE SECRETARY OF STATE,
COLUMBUS, OHIO, November 27, 1875.

To His Excellency WILLIAM ALLEN, Governor of Ohio :

In compliance with the provisions of the Constitution and laws of this State, I have the honor to submit the annual report of this department for the year ending with the 15th inst.

CORPORATIONS.

During the year charters have been granted to three hundred and fifty-nine corporations, with an aggregate capital stock of \$130,661,426; twenty companies have increased their capital stock \$9,538,000 in the aggregate, and two have reduced their capital stock \$620,000; making the net authorized capital stock during the year \$139,579,426.

A comparison with the previous year shows an increase of forty-nine in number of charters granted, and an increase of \$84,123,360 in the net amount of capital stock authorized.

The following is a classified statement of the transactions in this office during the year under the corporation laws :

PAPER FOR THE STATE.

On the 6th day of September, after giving notice as required by statute, I awarded contracts for paper for the current year as follows:

To Mead & Nixon Paper Company, of Dayton, Ohio, for two thousand reams of double super-royal printing paper at $10\frac{3}{4}$ cents per pound.

To Elliott Jones & Co., of Columbus, Ohio, for fifty reams brochure cover paper at 15 69-100 cents per pound, and twenty-five reams of flat letter paper at 19 49-100 cents per pound.

To Harding Paper Company, of Middletown, Ohio, for two hundred reams double flat cap paper for printing bills at $17\frac{3}{4}$ cents per pound; for twenty-five reams medium paper at 22 cents per pound; for seventy-five reams flat cap paper at 18 15-100 cents per pound; for seventy-five reams folio post paper at 18 15-100 cents per pound, and twenty-five reams demy paper at 20 cents per pound.

SUPREME COURT REPORTS.

Under the contract, entered into by one of my predecessors, with Robert Clarke & Co., to print and supply the State with three hundred and fifty

copies of the twenty-second and such other volumes of the Ohio State Reports as may be ready for publication within two years from the 23d day of June, 1873, the said publishers have printed and delivered to the State the stipulated number of the twenty-fourth volume of Ohio State Reports; and under a subsequent contract made with the same party for the publication of the twenty-fifth and such other volumes of the Ohio State Reports as may be ready for publication within two years from the 23d day of June, 1874, the said contractors have made considerable progress in the printing of the twenty-fifth volume, which I presume will be completed early in the year, and for which no appropriation has been made. Under the contract an appropriation of \$875 will be necessary for that purpose.

Of the Reports there are now in my possession the following numbers :

STATUTES.

There are on hand eighty-two copies of Volume I. and eighty-six copies of Volume II. of Swan and Critchfield's Revised Statutes; four hundred and twenty copies of Swan and Saylor's Supplement to the Revised Statutes, and two hundred and thirty-five copies of Curwen's Statutes. Of Gholson and Okey's Digest there are two hundred and sixty-four copies.

SUGGESTIONS AND RECOMMENDATIONS.

I most cordially reiterate and approve the following recommendation of my predecessor in his report for 1874, to wit: "A fire-proof depository should be provided for the original rolls of the laws and joint resolutions on file in this office. They are now kept in wooden cases, which would be easily ignited from accidental fire in the room. These laws should be numbered consecutively for each year, and a list made and placed in each box in which they are filed. It is now difficult to find any particular law for reference."

Section 15 of the act passed April 8, 1856 (S. & C., p. 829), requires all copies of laws sent to the several counties, not required to supply the officers entitled to the same, to be deposited with the Clerk of the Court of Common Pleas, and by him sold at actual cost. This provision of law, so far as my experience and information extend, is a nullity. I know of no instance in which it has been complied with, or of any money having been paid into the treasury arising from such sales, and, therefore, would suggest that the propriety of its modification or repeal be submitted to the consideration of the General Assembly.

The Secretary of State is frequently required to give certificates to the official character of justices of the peace. In this office there is no record, nor any law requiring one kept, to show that any person elected to that office has qualified, neither is there any means of knowing when the office of any justice of the peace becomes vacant by death, resignation, or removal from the township; and I respectfully ask that the attention of the General Assembly be directed to this fact, that they may take such action upon the subject as to them may seem proper.

The reports of my predecessors have embraced a complete list of State officers and members of Congress from the organization of the State Government. In this report is embraced a complete list of the members and officers of the several Constitutional Conventions and General Assemblies, together with a complete abstract of votes for Governor at each succeeding election since the organization of the State Government, and thereby supplying a very valuable portion of the history of the State heretofore most difficult to obtain, even by those who were most familiar with our State records.

Very respectfully,

Your obedient servant,

WM. BELL, JR.,

Secretary of State.

SEAT OF GOVERNMENT.

The first seat of government of the State was at Chillicothe, and continued at that place until 1810. About that time the question of the permanent location was proposed, and propositions were made by the people of several localities.

On the 13th of December, 1809, Mr. Matthias Corwin, of Warren county, introduced a resolution to appoint a committee of three "to inquire into the expediency of fixing a permanent seat of government," which was adopted. The committee reported that "the permanent seat of government ought to be established by law at the present session of the General Assembly; that in consequence of the permanent seat of government not being established by law, no public buildings have been erected, and that the records of the State, and other public papers, remain at great risk and hazard."

The result of this report was a resolution "that the next meeting of Legislature should be at ———, and that a committee of three be appointed to 'bring in a bill agreeably thereto.'" Messrs. Tatman, Jackson and Massie were appointed the committee. The House then adopted a resolution that a committee be appointed to "bring in a bill" for the establishment of a permanent seat of government, be instructed to receive propositions, as a donation to the State, toward the erection of the public buildings," etc.

Proposals were made and donations offered by Moses Byxbee and Henry Baldwin for Delaware, by James Kilbourn for Worthington, Lucas Sullivant and others for Franklinton, and John and Peter Sells for Dublin, Franklin county, "a point four and one-half miles west of Worthington, on the west bank of the Scioto River," and from Zanesville, Chillicothe, and Lancaster.

The committee subsequently reported a bill to fix "permanently" the seat of government at Zanesville, but the House struck out "permanently," and the bill passed fixing the "temporary seat of government at Zanesville" until otherwise provided by law.

The seat of government was therefore removed to Zanesville, and remained during two sessions, viz., 1810-11 and 1811-12, when it was removed to Chillicothe, where it remained until 1816. At the session of 1811-12 an act was passed fixing Columbus as the permanent and Chilli-

cothe as the temporary seat of government. The first section of the act is as follows:

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio,* That the proposals made to this Legislature by Alexander McLaughlin, John Kerr, Lyne Starling and James Johnston, to lay out a town on their lands, situate on the east bank of the Scioto River, opposite Franklinton [then the county seat], in the county of Franklin, and parts of half sections Nos. 9, 10, 11, 25 and 26, for the purpose of having the permanent seat of government thereon established; also to convey to the State a square of ten acres and a lot of ten acres, and to erect a State house and such offices, and a penitentiary, as shall be directed by the Legislature, are hereby accepted, and the same and their penal bond annexed thereto, dated February 10, 1812, conditioned for their faithful performance of said proposals, shall be valid to all intents and purposes, and shall remain in the office of the Treasurer of State, there to be kept for the use of the State.

GENERAL ASSEMBLIES.

FIRST GENERAL ASSEMBLY.

The following are the names of the members of the first session of the first General Assembly of the State of Ohio, which convened at Chilli-cothe on the first day (Tuesday) of March, 1803:

Adjourned February 22, 1808.

^a To fill unexpired term of John Taggart, resigned.

^b To fill unexpired term of William McFarland.

The returns were referred to a committee, who, after examination, reported that "there appears to have been votes cast for Return J. Meigs, Junior, Return J. Meigs, and Return Jonathan Meigs, and are of the opinion, from reading the 13th section of the law to regulate elections, that they are intelligibly and in fact given to Return Jonathan Meigs. Trumbull and Geauga counties are rejected because the returns of said counties are blended together, and returned under the seal of Trumbull county; and the return of Greene county for the same reason, it being jointly returned with Champaign county; and also of Athens county, it being returned by the clerk of Washington county; also the returns from Champaign, Ross, Belmont, Highland and Washington counties, because it does not appear that the abstracts had been made by the clerks, with the assistance, as the law requires; and also of Adams county not being certified under the seal of the county. Comparing the residue of the returns, we find that Return Jonathan Meigs has 3,299 votes, and Nathaniel Massie has 2,317 votes, such as your committee consider as legal, and that Return Jonathan Meigs has a majority of 928 votes."

Nathaniel Massie filed a notice to contest the election of Governor Meigs on the grounds of ineligibility, on the 25th of December, 1807, as follows:

To Return Jonathan Meigs, Jun., Esquire :

SIR: You will take notice that I intend to contest your election to the office of Governor for the State of Ohio, on the following grounds :

1. That you do not possess the qualifications required by the Constitution of this State to hold and exercise the office of Governor.
2. That you have not been an *inhabitant* of this State four years next preceding the election of Governor, on the second Tuesday of October last past (1807), as expressly required by the third section of the second article of the Constitution of this State.
3. That within four years next preceding the late election, as aforesaid, you have resided in, and exercised the office of Judge of the United States in the Territory of Upper Louisiana, to which you were duly commissioned by the President of the United States, sworn to discharge the duties of Judge as aforesaid, and received the salary attached by law to said office, during which time you resided, and was an inhabitant of Upper Louisiana.
4. That you now hold an office under the United States.
5. That on the second day of April last past you was appointed by the President of the United States Judge of the Michigan Territory, and received the salary attached to said office.

CHILLICOTHE, Dec. 25, 1807.

NATHANIEL MASSIE.

Mr. Brush was admitted as counsel for Massie, the contestor, who moved to postpone the trial until the contestor should collect testimony to establish the specifications made. Mr. Meigs, Jr., the Governor elect, informed the President and the two houses that he conceived it to be his duty to

reply to the specifications contained in the notice, which he read in his place, as follows, to wit :

NATHANIEL MASSIE AGAINST RETURN JONATHAN MEIGS, JUN., ON CONTEST OF ELECTION TO THE OFFICE OF GOVERNOR.

Reply.

To the specification of the first point contained in the notice of the contestor, the said Return Jonathan Meigs replies that he doth possess the qualifications required by the Constitution of this State to hold and exercise the office of Governor.

To the specification of the second, he replies that he hath been an inhabitant of this State for four years next preceding the election for Governor, on the second Tuesday of October last past, as expressly required by the Constitution of this State.

To the specification of the third point he replies, that true it is that within four years next preceding the late election, as aforesaid, he did temporarily reside in, and exercise the office of Judge of the United States in the Territory of Upper Louisiana, to wit, from the 4th day of July, 1805, to the 20th day of said month, and from the 6th day of May, 1806, to the 15th day of July following, to which office he was duly commissioned by the President of the United States, sworn to discharge the duties of Judge as aforesaid, and did receive the salary attached by law to said office from the said fourth day of July, 1805, until the last day of March, 1807, and that he was *not* an inhabitant of Upper Louisiana.

To the specification of the fourth point he replies, that he doth not *now* hold an office under the United States.

To the specification of the fifth point he replies, that true it is that on the 2d day of April he was appointed by the President of the United States Judge of the Michigan Territory, and received the salary attached to said office, to wit, until the last day of September last.

And the said Return Jonathan Meigs reserves to himself the right of explaining, by testimony, the circumstances and facts which relate to the aforesaid points, conceded or denied.

RETURN JONATHAN MEIGS, JUN.

Mr. Brush waived his motion, and the following statement of facts were agreed to be given in evidence :

STATEMENT, ETC.

In December, 1804, I left Ohio, and arrived in Louisiana in January, 1805, bearing a commission of colonel in the army of the United States, and commandant of the district of Missouri. The office of commandant and colonel expired by law at the close of the session of Congress, in the spring of 1806. In July, 1805, I received a commission as Judge of the Territory of Louisiana. I returned to Ohio in August, 1805, having been then absent from Ohio but 7½ months, and having then resided in Louisiana but 6 months.

In April, 1806, I went to Louisiana, and returned in July, 1806, having been then absent from Ohio between three and four months, and having then resided in Louisiana but little more than 2½ months. The whole absence from Ohio, both times included, amounts but to 11 months, and the residence in Louisiana to 8½ months.

During the last session of the Legislature of Ohio I was commissioned by the Governor

of the State to carry into effect the law "to prevent certain acts hostile to the peace and tranquillity of the United States within the jurisdiction of this State," under which I acted in arresting Burr's flotilla, etc. During the same session I was elected by the Legislature trustee for lands granted for religious purposes in the county of Washington, under which I acted. On the 4th of July, 1807, I received a commission as Judge of the Territory of Michigan, which I accepted. The commission was dated either the 1st or 2d of April preceding, and had been misssent to Louisiana—was never qualified to office in Michigan. Almost immediately after the receipt of the last commission I was summoned to Richmond on Col. Burr's trial—returned as soon as discharged, in October last.

I have (except the several absences above mentioned) resided with my family at Marietta, in Ohio, 13 years, and not elsewhere. During that period my family never left Marietta. My absence in Louisiana was on a colonial commission, on behalf of the State of Ohio, as well as for the United States. If any material fact or circumstance is herein omitted, I will readily insert it.

R. J. MEIGS, JUN.

CHILLICOTHE, December 14, 1807.

Mr. Joseph Hammond was admitted as counsel for Gov. Meigs. Both parties, by their counsel, were heard before the joint session of the General Assembly, and after a full hearing, and "the testimony being gone through on both sides," the following resolution was adopted by a vote of yeas 24, nays 20:

"Resolved by the General Assembly of the State of Ohio, That Return J. Meigs, Jun., is not eligible to the office of Governor."

Yeas—Senators Bigger, Bryan, Claypool, McArthur, Thomas. Representatives Alex. Campbell, Matthias Corwin, William Corry, Andrew Ellison, Thomas Elliott, George Harlan, Benjamin Hough, William W. Irvin, John Jones, Philip Lewis, Jr., William Lewis, Elias Langham, James McClure, Jeremiah McLene, John Patterson, John Pollock, Joseph Tatman, Wm. Vance, Thomas Worthington—24.

Nays—Senators Cone, Dillon, Jewett, McConnell, McLaughlin, Price, Seofield, Sharp, Wood. Representatives John R. P. Bureau, Daniel C. Cooper, Zebulon Foster, Othniel Looker, John Matthews, Thomas McCune, James Montgomery, Joseph Palmer, John Sloane, John W. Seely, Philemon Beecher (President)—20.

The two Houses, acting in the capacity of a court, adjourned *sine die*, December 30, 1807.

FIFTEENTH GENERAL ASSEMBLY.

This being the first session held in the State House, just completed, Governor Thomas Worthington, in his message of December 3, 1816, says:

"It will no doubt be highly gratifying to you that your first meeting at the permanent seat of government, under the dispensation of a Divine Providence, should be at—

^a Contested by Christian Miles, an elector, on the grounds of holding a lucrative office, inspector, and decided ineligible, December 8. Mr. Fee was again elected, and resumed his seat January 3, 1816.

^b To fill vacancy caused by resignation of Isaac Burnett.

tended with many favorable circumstances. With a few exceptions, the whole world is now freed from the turmoil and desolation of war, and restored to a state of tranquillity and comfort; and even where war does exist, we find a people struggling to establish that independence and liberty which our forefathers, after similar efforts, established in this our happy country.

"Among the objects which claim your particular attention are the public schools and means of improving the minds of the rising generations, the navigable rivers and public roads of the State.

"The beauty and advantages of the site fixed on as the permanent seat of government of the State are more apparent as it progresses in improvement. You may for the present be subject to some inconveniences, but from the fertility of the surrounding country, and the extraordinary improvements made since its establishment, there is every reason to expect that in a short time the growth of the town will remedy the inconveniences."

^b Mr. Gardiner's seat was contested, on the grounds that he had had "published and circulated a certain hand-bill, addressed to the free and independent voters of Greene county," bearing date September 7, 1825, in which, among other things, the said James B. Gardiner did promise to the electors of the county of Greene that if elected to a seat in the House of Representatives he would use his best exertions to have "the obnoxious and unconstitutional compensation law repealed," and the wages reduced to two dollars; but that if his exertions should prove unavailing, he would then draw the odd dollar a day from the Treasury, and as soon as he returned home he would deposit it with the county commissioners, for the use of the people of Greene county."

The committee on Privileges and Elections, December 10th, reported that "this prom-

ise did produce an effect upon the electors of Greene county favorable to the election of the said James B. Gardiner," and recommended the adoption of the following resolution, which was adopted by a vote of yeas 44, nays 25, viz: "*Resolved*, That James B. Gardiner is not entitled to a seat in the General Assembly of the State of Ohio as a Representative from the county of Greene, and that he is incapable of holding a seat in the House of Representatives for two years." Whereupon the Speaker declared the seat to be vacated. On December 12 Mr. McCord moved to reconsider the action of the House, so far as it prohibited him from holding a seat in the Legislature for two years, which was agreed to—yeas 48, nays 18; and the resolution disqualifying the member for two years was indefinitely postponed. On January 2d Mr. Sanderson presented the certificate of election of James B. Gardiner, returned a member from Greene county. Whereupon Mr. Kendall presented a preamble, setting forth that the Constitution declared that "any person who shall directly or indirectly give, promise, or bestow any reward to be elected, shall thereby be rendered incapable for two years to serve in the office for which he is elected," and that the seat of James B. Gardiner, heretofore returned a member from the county of Greene, was, on the 10th day of December last past, declared by this House to be vacant by reason that said Gardiner, at and previous to the election in October last, had been guilty of a violation of the above provision of the Constitution, and is therefore subject to the disability which it declares.

Thereupon a resolution was adopted by 43 yeas to 25 nays, declaring that the said Gardiner was at this time incapable to serve as a Representative in the General Assembly.

Election of Officers.

The House organized by the election of Rufus P. Spalding as Speaker, and Gideon M. Ayres Clerk *pro tem*. by a *viva voce* vote, as follows :

For Speaker—Rufus P. Spalding (Democrat).....	36 votes.
Eleutheros Cook (Whig)	34 “
Albert A. Bliss (Whig).....	1 “
For Clerk—Gideon M. Ayres (Democrat).....	37 “
John M. Gallagher (Whig).....	34 “
Excused from voting.....	1 “

This, and that by the House of Representatives of the forty-first General Assembly, were the only elections by a *viva voce* vote under the Constitution of 1802, by the Legislature; adopted on motion of C. J. McNulty, of Knox county.

An extra or adjourned session of the 40th General Assembly convened on Monday, July 25, 1842, in obedience to the provisions of an act entitled “An act to provide for an adjourned session of the General Assembly.” The following Senators appeared, and answered to their names :

Messrs. Aten, Barnett, Bartley, Carpenter, Clark, Crowell, Dewey, Ford, Fogs, Godman, Goodin, Harris, Hazeltine, Henderson, Holmes, Hostetter, Latham, Leonard, Mitchell, McConnell, Nash, Perkins, Ream, Ritchey, Robbins, Root, Sill, Spangler, Stanton, Taylor, Thomas, Van Vorhes, Wade, Waddle, Walton, and Speaker (Farran).

On the 11th day of August Mr. Ford presented the resignations of the following Senators :

Messrs. Barnett, Carpenter, Crowell, Ford, Henderson, Perkins, Root, Sill, Stanton, Van Vorhes, Wade, and Waddle.

On August 12th the Speaker issued his warrant to the Sergeant-at-Arms commanding him to bring into the Senate the above-named Senators.

That officer reported that he had read the warrant to the above-named Senators, “and which they all refused to obey, by declaring they were no longer Senators,” and that “under existing circumstances” he could not compel the attendance of the members “without an application to the Governor to call out the aid of the military forces.”

The Senate then adjourned “until eight o'clock to-morrow morning,” and dispersed without again meeting.

Representatives.

The following members of the House of Representatives answered to their names :

Messrs. Ackley, Atkinson, Baird, Bliss, Bowen, Briggs, Brown, Byington, Cahill, Chambers, Chenowith, Clark, Converse, Cook, Dunn, Dunham, Evans, Ewing, Fudge, Fuller, Gard, Green, Gregory, Griffith, Hatch, Hawkins, Henderson, Hockinberry, James, Jenkins, Jones, Karshner, Kelley of Cuyahoga, Kelly of Perry, Kitheart, Lawrence, Lowman, Lyon, Medberry, Meredith, Moore, McCloskey, McClung, McConnell, McCrea, McFarland, McNulty, Olds, Okey, Perkins, Powell, Probasco, Raffensperger, Schenck, Scott, Sharp, Smith of Highland, Smith of Licking, Smith of Montgomery, Steedman, Streator, Taylor, Titus, Updegraff, Warner, Watters, Wheeler, Wolcott, Wood, Workman, and Spalding (Speaker).

On August 12th, the roll being called, and no quorum being present, the Sergeant-at-Arms was dispatched for the absentees. That officer reported that he had notified Messrs. Bliss, Chenowith, Converse, Cook, Fuller, Gregory, Kelley of Cuyahoga, Lawrence, Powell, Scott, Smith of Montgomery, Taylor, Updegraff, and Wheeler, "and that they refused to obey his summons."

The Speaker issued his warrant to "take the bodies of John A. Smith, J. B. Ackley, Stephen Titus, Sebastian F. Taylor, Wm. B. McCrea, R. W. Clark, Gideon Dunham, Stephen Evans, Thomas M. Kelley, Thomas W. Powell, Joseph Chenowith, Moses Gregory, John P. Converse, John Fudge, Turner G. Brown, Josiah Scott, Eleutheros Cook, Simeon Fuller, Albert A. Bliss, Stephen M. Wheeler, Isaac N. Gard, Joseph S. Updegraff, Robert C. Schenck, Silas H. Smith, Lorenzo Warner, Charles Bowen, David Chambers, Jason Streator, Joseph S. Hawkins, and John Probasco, and have them, and each of them, forthwith before said House of Representatives."

The officer reported that he had served the warrant upon sundry members named, and "which warrant they disobeyed," and that he was directed by the Speaker "not to use force," and he "therefore returned the warrant."

There being no quorum, the members dispersed, which closed the "adjourned session," called for the purpose of districting the State for Representatives in Congress.

Lewis Broadwell presented his credentials as Senator elect from Hamilton county, from the First District, and claimed the right to be sworn.

William F. Johnson also appeared and presented his credentials, and claimed his right to a seat as a Senator from Hamilton county.

Mr. Johnson's credentials were objected to because they did not show that he was elected in any district established by law.

After a controversy, lasting from the 3d of December until the 13th, the Senate proceeded to elect a Speaker, as follows :

1st ballot: Asa G. Dimmock (Dem.).....	18 votes.
William Dennison, Jr. (Whig)	15 "
Brewster Randall (Free Soil)	4 "

There being one more vote cast than legal Senators, the second ballot was demanded.

2d ballot: Asa G. Dimmock	13 votes.
Wm. Dennison, Jr.	12 "
Brewster Randall.....	6 "
5th ballot: Lucian Swift (Free Soil)	17 "
Brewster Randall.....	18 "
Blank.....	1 "
7th ballot: Lucian Swift	18 "
Brewster Randall.....	18 "

The voting continued until the one hundred and forty-third ballot, with the same result as the seventh.

144th ballot: James Myers (Dem.).....	17 votes.
Brewster Randall.....	18 "
Asa G. Dimmock.....	1 "

Balloting continued until December 28th, when, on the three hundred and first ballot, Harrison G. Blake was elected Speaker.

301st ballot: Harrison G. Blake (Whig and Free Soil).....	16 votes.
Lucian Swift.....	11 "
Andrew H. Byers (Dem.)	2 "
Fisher A. Blockson (Dem.).....	1 "

For Clerk—1st ballot: Silas B. Walker (Whig)	12 votes.
John R. Knapp (Dem.).....	15 “
L. L. Rice (Free Soil).....	3 “
2d ballot: John R. Knapp.....	16 “
Silas B. Walker	12 “
L. L. Rice.....	2 “

Mr. Knapp was declared elected.

On the one hundred and forty-eighth ballot L. L. Rice was elected Sergeant-at-Arms, as follows :

L. L. Rice	15 votes.
T. H. Blaker.....	9 “
Blanks.....	4 “

On February 27th the Senate decided, by a vote of 15 yeas to 14 nays, that “the seat in the Senate temporarily held by Wm. F. Johnson be and the same is hereby declared vacant; and that Lewis Broadwell be forthwith admitted to a seat in this Senate as Senator from the First District of Hamilton county.” Mr. Broadwell was sworn as a Senator.

The old State House was destroyed by fire on the night of January 31, 1852.

The Senate convened in the United States Court-House, and the House of Representatives in Neil's Odeon Hall.

The Legislature adjourned on the third day of May, to meet on the third Monday of November, 1852.

ADJOURNED SESSION, FIFTIETH GENERAL ASSEMBLY.

The adjourned session of the fiftieth General Assembly convened at Columbus on the 15th day of November, 1852. The Senate met in the old United States Court-House, and the House of Representatives in Neil's Odeon Hall.

All the Senators* were present, except Hon. Cautius C. Covey, Senator from Washington and Morgan, who was killed by the explosion of the boilers of the steamboat Buckeye Bell, on the Muskingum River, near the town of Beverly, while on his way to Columbus, about the 10th of November, 1852.

On the 20th day of December William Hawkins, of Morgan, presented his credentials to fill the vacancy occasioned by the death of Mr. Covey.

George Rex (Democrat), of Wayne county, was elected President *pro tem.* on the 14th of March, 1853.

In the House of Representatives Henry Brachman appeared, to fill the vacancy occasioned by the death of James Struble, from Hamilton county, and John Dickey, to fill the vacancy occasioned by the resignation of Charles L. Weller, of Butler county.

On the 7th of March Edward Sheffield (Democrat), of Henry county, was elected Clerk of the House in place of Mahlon H. Medary.

Adjourned March 14.

RESIGNATION OF UNITED STATES SENATOR SMITH.

The following proceedings in relation to the resignation of John Smith, United States Senator, in 1808, should be on page 23, after the election of Governor Meigs as United States Senator, to fill the vacancy. On the 19th of December, 1806, the Legislature adopted the following preamble and resolution :

WHEREAS, it is the opinion of this General Assembly that in the present interesting crisis of the country it is necessary that every public officer should be at his post; and that all public functionaries should possess the confidence of their constituents; and whereas it appears John Smith, Esquire, Senator in the Congress of the United States from this State, has not, from certain considerations to us unknown, attended to the duties of that important position; therefore,

Resolved by the General Assembly of the State of Ohio, That it be and is hereby recommended to John Smith, Esquire, that he resign his seat in the Senate of the United States, unless he proceed immediately to his post: and that the Governor be and he is hereby requested to forward a copy of these resolutions to the said John Smith, Esquire.

The Journals of the Legislature do not state the reasons for the conduct of Senator Smith. This is explained in George Tucker's life of Thomas Jefferson, as follows :

John Smith, a Senator from Ohio, was one of those involved in the conspiracy of Aaron Burr, and was indicted by a grand jury at Richmond. As soon as he attended the Senate, on the 27th of November, 1807, a committee was appointed to inquire whether he should be permitted to hold his seat in that body. On the 31st of December, the committee having made a report against him, he was allowed to defend himself against the report there adduced by counsel, and by adducing testimony, both oral and written. After the evidence was heard, and several postponements of the investigation at his instance, the question of his expulsion was taken on the 9th of April, when, there being 19 yeas and 10 nays, and, consequently, not two-thirds for his expulsion, it was determined in the negative. He kept his seat, and voted during the remainder of the session, and, on returning to Ohio, resigned his seat.

ELECTION OF UNITED STATES SENATOR.

On the 1st of January, 1807, Edward Tiffin was elected United States Senator for six years, in place of Thomas Worthington, whose term expired on the 3d of March of that year, by the following vote :

Edward Tiffin	25 votes.
Philemon Beecher	12 "

STATISTICAL REPORT
OF THE
SECRETARY OF STATE
TO THE
GENERAL ASSEMBLY OF OHIO,
FOR THE YEAR 1875.

OFFICE OF THE SECRETARY OF STATE,
COLUMBUS, OHIO, JANUARY 8, 1876.

To His Excellency WILLIAM ALLEN, Governor of Ohio :

SIR: I have the honor to present, through you, to the General Assembly, my first annual report on Ohio Statistics, being for the year 1875.

Very respectfully, your obedient servant.

WILLIAM BELL, JR.,

Secretary of State.

STATISTICAL REPORT.

To the General Assembly of Ohio :

The eighteenth annual report on the statistics of Ohio is hereby respectfully submitted, with as little comment as possible, except as to the necessity and means of perfecting them for the future collection and compiling. Statistics are intended to show the state of society, the condition of the people, their economy, their extravagance, their property, resources and expenses, their health, longevity, arts, manufactures, agriculture, commerce, and political power. The facts and results of the year's life and industry are shown, as reported by those whose duty the law makes it to collect them: the cause and effect is left to those who may analyze them. It must be admitted that rapid progress has been made in this State in collecting statistics and perfecting returns made by the several city, township, and county officers since the system was adopted. The reports made to this office by the county auditors, probate judges, sheriffs, clerks, recorders, and coroners, for the year 1875, have been very promptly executed, and generally satisfactory, considering the great amount of labor required by them.

The great value of statistics is being correctly appreciated, and every effort possible has been made by this office to impress upon those whose duty it is to collect them the importance of obtaining reliable information, and reporting that information in detail and aggregate, believing that the statistics are only valuable in proportion to their reliability. The statistics of crops, live stock, and the returns generally of county officers of their official business, more nearly approximate correctness than any others.

The reports of assessors, and others whose duty it is to report them, of deaths and births, diseases, sexes, and ages, are susceptible of great improvement. Of the 28,167 deaths reported this year, a large number, as will be observed by referring to the tables, were reported without being classified; and in many instances ridiculous errors occur either in the assessor's report or the report of the officers compiling the returns. A large number of "infants," ranging from *five* to *eighty* years of age, are returned as dying from *cholera infantum*. All such over three years of

age have been placed with the number of "unknown;" also a number of male persons are returned as dying of *puerperal fever*, a disease not common to male persons. These particular cases are here noticed for the purpose of calling the attention of those whose duty it is to collect information and make their report, that more care will be taken hereafter. Many of the probate judges, when pressed for more full and correct reports, answer, "How can you expect full and correct reports when the assessors fail to report correctly to us?" or, "How can you expect full and correct reports from new assessors elected every year?" While it is undoubtedly true that the great number of errors are caused by the neglect and incompetency of the assessors, it is also true that many occur in making up the tables of returns, and in many instances by families refusing or neglecting to give the information.

The "act to provide for the registry of births and deaths," passed March 18, 1867 (p. 739 S. and S.), provides "that it shall be the duty of the physicians and professional mid-wives to keep a registry of the several births as near as the same can be ascertained, the time of such birth, sex and color of the child, the names and residence of the parents;" and physicians who have attended deceased persons in their last illness, clergymen who have officiated at the funeral, and the sexton who buried deceased persons, shall keep a registry of the name, age, and residence of such deceased persons at the time of their deaths. It shall be the duty of the physician and professional mid-wife to report fully the births registered by them, as required by this act, to the judge of the probate court of the county every three months, viz., on or before the second Monday of January, April, July, and October of each year: and if there is no physician or mid-wife in attendance, then the parent shall be requested to make such report to the probate judge within one month. The penalty for failing to comply with this act is "ten dollars for each offense." This law is comprehensive enough to insure complete social and vital statistics, if complied with; but it is safe to say that not one half of the persons whose duty it is to make such returns give it the least attention, nor is the penalty for neglect ever imposed.

Section 3 of the above-named act provides that the probate judges shall make their reports to this office "on or before the first Monday of November every year." I would respectfully recommend that this section be so amended as to require their reports to be made on or before the first Monday of September, as under the present law many of the reports are not made until it is too late to properly prepare them for printing in the annual report.

The reports of the clerks of the courts on crimes, punishments, and

divorces, required by the law, are very generally full and satisfactory, except that some of the reports fail to show fully the disposition of cases.

The reports of the manufacture of iron, and of articles composed wholly or in part of iron, are very meagre and unsatisfactory. Only fifty-four of the eighty-eight auditors of the State made returns. Some of the largest manufacturing counties are omitted. The blame is generally ascribed to the assessors, but upon inquiry it is found that it rests in a great measure with the persons engaged in these pursuits, they neglecting or refusing to make such reports to the assessors. The reports this year, as well as in years previous, show but a very small proportion of this large interest in Ohio. If the Legislature can not provide some more effectual mode of collecting these statistics, the present law had better be repealed.

AGRICULTURAL STATISTICS.

GRAIN CROPS OF 1873 AND 1874.

The following comparison of the grain crops of Ohio in 1873 and 1874 shows an increase in the yield of wheat, corn, barley, and buckwheat, and a loss in oats and rye, and a gain in the acreage of wheat, corn, and oats, and a loss in the acreage of barley, rye, and buckwheat:

FLAX.

The product of flax in Ohio in 1874 was, number of acres sown, 40,719; bushels of seed produced, 268,790; and pounds of fiber, 6,223,351. Compared with 1873, it shows a decrease in acres sown of 2,936; increase of pounds of fiber, 1,152,563, and increase of bushels of seed, 101,280.

In 1873 there were twelve counties produced over 100,000 pounds of fiber.

In 1874 the following counties produced over that amount :

TOBACCO CROP.

The following tables show that 12,439 acres were planted in 1874, producing 9,245,524 pounds. This shows a decrease of 31,411 acres, and 30,327,034 pounds, compared with the reports of 1873.

The following shows the tobacco crop of Ohio for five years:

YEARS.	Acres planted.	Pounds produced.	Average per acre.

COUNTIES.	Acres.	Pounds.
Montgomery	4,501	4,065,100
Noble	1,431	1,074,386

In 1873 there were twelve counties produced more than 1,000,000 pounds.

This presents the most remarkable loss of production of any article in the State. It will be observed that it is 11,811,205 pounds less than the crop of 1870, which was the smallest for five years.

The United States Statistical Report says: "The tobacco crop of 1874 is so exceptionally small and poor, from seeding to curing, unpromising and disappointing, that a record of results is deemed desirable. In nearly all the tobacco districts the destruction of the seed-beds by insects, and the drouth, which dried out the plants before setting or burned them afterward, caused the reduction of the reported area in July more than one-half. One county in Kentucky (Adair), which grew 2,500 acres in 1873, had scarcely twenty-five acres planted on the 25th of June of that year."

The year was very disastrous to the tobacco interests throughout the country.

DOGS, AND SHEEP-KILLING.

The assessors report 172,572 dogs in the State; sheep killed by dogs, 31,691; value, \$101,681; and 25,770 sheep injured by dogs to the estimated amount of \$43,633. Aggregate of loss, \$145,324.

This shows an increase of 7,674 dogs over 1873; and a decrease in the value of sheep killed and injured of \$10,994.

HORTICULTURAL STATISTICS.

FRUIT CROPS AND VINEYARD PRODUCTS OF OHIO.

Mr. M. B. Bateham, Secretary of the State Horticultural Society, furnishes the following relative to the fruit crops and vineyard products of the State :

THE APPLE CROP.

The statistics of the apple crops of the State, for five years preceding 1874, are as follows :

	Bushels.
1870	11,013,582
1871	10,437,437
1872	21,632,475
1873	11,343,431
1874	15,918,794

It will be seen that there is not only very great difference in the yield of different seasons, but there is also a regular alternation of full and deficient crops, the even years giving full crops and the odd years deficient ones. If we take the returns of several adjoining counties in different sections of the State, these variations and alternations of the crops will be still more apparent. Take, for instance, three counties in the north-eastern section, and as many in the south-west, thus :

COUNTIES.	1870.	1871.	1872.	1873.	1874.
Ashtabula	418,335	111,109	442,443	286,408	428,882
Geauga	315,114	85,934	295,102	109,440	370,569
Portage	446,384	16,651	374,630	129,155	513,336
Hamilton	40,037	151,869	165,509	19,970	188,848
Butler	20,801	116,094	84,140	24,209	67,612
Clermont	82,867	156,992	320,823	36,592	297,106

The years 1870, 1872, and 1874, it will be seen, were seasons of abundant crops, while the alternating ones were those of scarcity—excepting that in some of the southern counties there was a light crop in 1870, and, consequently, a fair one in 1871, followed by another in 1872, which was the largest ever produced in the State. This was followed by a light

general crop in 1873, and another full crop in 1874, and an entire failure in most parts of the State in 1875.

The north-western section of the State, especially the several counties of the Maumee valley, differs from the rest in being more newly settled, the soil unexhausted by cultivation, and the orchards young and thrifty, with the climate ameliorated by the proximity of the lakes and the large amount of existing forests. Consequently, the apple trees have not been exhausted by overbearing, and have not formed the habit of bearing only in alternate seasons; while the fruit also is much fairer and of better quality, owing to the health of the trees and the comparative exemption from injury by insects and diseases, which are most prevalent among old orchards. The following are the returns of the apple crops for three of these counties :

COUNTIES.	1870.	1871.	1872.	1873.	1874.
Sandusky	163,288	104,151	207,700	474,769	130,471
Hancock	185,072	182,665	154,728	489,644	193,426
Seneca	233,175	282,302	279,404	284,844	200,435

To estimate the comparative value of these figures, it should be borne in mind that full three-fourths of this north-western fruit is fit for shipping to market, and not over one-third or one-half of that grown in the central and southern counties. This uniformity of the apple crops, and the superior quality of the fruit, are of great advantage to the orchardists of the north-western counties, enabling them to supply the markets of the central and southern parts at very good prices in seasons of scarcity there, as in 1871 and 1873, and again in 1875, when there was a half crop of fine fruit in the north-west, and a complete failure throughout the central and southern counties.

When the statistics of 1875 are obtained, they will doubtless show the smallest crop of apples ever produced in Ohio, at least since there have been any official records of crops. The causes of this failure were several. The crop of 1874 was a full one, and besides the exhaustion of old trees, which a heavy crop always occasions, there was the additional injury of severe and prolonged drouth, so that little or no new growth took place, and both foliage and new wood were very deficient. Then, besides, there was the more immediate and visible damage caused by severe cold about the 20th of April, when the trees in most parts of the State were in full bloom or just passing out, the thermometer indicating only 15° or 16° above zero, which of course killed nearly all the blossoms or fruit germs.

But in the northern range of counties the blossoms were not generally open, hence escaped, and a partial crop of fruit was produced.

Now, for the coming year, as a result of the failure the past year, and the recuperation of the trees by their rest and the moist season, it is pretty certain there will be another excessive crop in 1876, and that followed by a deficient one, or failure, in 1877, throughout all the older portions of the State.

A practical deduction from the foregoing is the advice given at the late meeting of the State Horticultural Society, at Toledo, to the farmers who are the owners of young orchards, to be careful and not let them overbear or suffer for want of care and culture; and those who own old orchards to plant young ones on good soil the coming spring, and then, as soon as the trees come into bearing, cut away the old ones, for it is believed that fully one-half the orchards in the State have outlived their usefulness.

THE PEACH CROP.

This crop is still more variable and unreliable than the apple, ranging in amount from 2,235,574 bushels, the full crop of 1874, down to a few thousand, or a failure, in 1875, and 94,516 in 1873. The most common cause of the failure of this crop is the killing of the fruit buds by the winter or the blossoms by frosts in spring. But full crops of fruit, especially in dry seasons, like that of 1874, are sure to cause exhaustion to the trees, rendering them specially liable to be damaged by the succeeding winter, as was the case in most parts of the State the past winter. Besides, when the crop is a full one, most of the fruit is of deficient size and quality, so that, with the quantity pushed on the markets, it has to be sold at prices which afford little or no returns to the growers; so that, on the whole, the peach crops of Ohio of late years have been of very little benefit to any body except the express companies; and it is doubtful whether very many trees will be planted for some years to come.

THE PEAR CROP.

The pear crop of 1874 is put down at 136,587 bushels, which is above the usual amount, but far less than it would be but for the prevalence of that perplexing scourge, the *blight*, which continues to destroy so many of the trees annually planted as to greatly discourage the planters. It has confidently been expected that, with the large amount of investigation bestowed on the subject by scientific and practical men of late years, the cause and cure of this malady would surely be discovered, but as yet the hope has not been realized, though almost every season some enthusiastic investigator cries out "Eureka."

PLUMS.

No statistics are obtained of the plum crop, but this is fast becoming quite an important item of the horticultural products of the State, bidding fair to rival the peach crop, at least in the amount of cash returns to the growers. It is estimated that there are about fifteen thousand plum trees, mostly Damsons, of bearing age set in orchards in Ross county, and several thousand more planted the past year, with probably five thousand other plum trees in bearing in other counties bordering the Ohio River, and five thousand in one or two northern counties, not counting those of last year's planting; so that it may be safely estimated there are not less than forty thousand plum trees now planted in the State.

CHERRIES.

Cherry trees of the Sweet or Heart varieties have been a good deal injured by the winters and drouths of the past two or three years, so that the culture of this fruit has rather diminished, though there is a very large amount of the Morello or sour class of cherries grown for the markets in southern Ohio.

VINEYARD PRODUCTS.

The grape crop of the State ranks next to that of the apple in commercial importance, and, like the other fruit crops, is found to vary considerably in amount and value. The returns for 1874 are :

Number of acres in vineyard	9,975
Pounds of grapes gathered	17,965,604
Gallons of wine pressed	1,078,056

This was probably the best crop of grapes ever produced in the State. That of 1871 was reported as a trifle larger—19,292,980 pounds—but the fruit did not ripen as well, and the amount of wine pressed was only 1,031,923 gallons. The crop of 1870 was reported as 15,853,719 pounds, and the amount of wine pressed 2,577,907 gallons; but there is reason to believe there was an overstatement of the amount of wine pressed that year, as there have also been material errors in the reported number of acres in vineyards.

The crop of grapes the past season (1875) was the poorest, both in amount and quality, that has been produced since 1869. No report has been given of the amounts of fruit or wine, but it is believed there was not over one fourth of the usual average of either. The crop of fruit was small, and most of the wine-grapes ripened poorly. This deficiency was owing to several causes. In the first place, many of the vines were injured by overbearing in 1874, together with the severe drouth of that year; second, many vines were killed or badly damaged by the winter

following that season of exhaustion; and lastly, it is found that in some localities the insect called *Phylloxera* is working on the roots of the vines, and causing some damage to the crops.

The number of acres in vineyard in the State at this time is presumed to be somewhat less than a few years ago; but the returns of the assessors on this point are not very reliable. It is well known that during the rush of vineyard-planting, seven or eight years ago, some of it was done on unsuitable soils, and these vineyards have gradually failed and been abandoned. At the same time, there have been some new ones planted each year, mostly in the interior of the State, and of small extent, chiefly of the Concord variety, the fruit designed for the local markets. More than half the amount of vineyards in the State are upon the islands and immediate shore of the west end of Lake Erie; and fully three-fourths of these are of the Catawba variety, which is still regarded as *the* wine-grape for this country. At the late meeting in Toledo vineyardists from the islands stated that their confidence in this grape, and especially in the wine business, was unabated; and many of those whose vineyards had been badly damaged were intending to re-plant with the Catawba variety. They did not, as yet, feel apprehensive of serious mischief being done by the *Phylloxera*.

ORCHARDS AND VINEYARDS.

The number of acres in orchards and vineyards and their products, as reported for 1874, were as follows:

Acres in orchards	391,620
Acres in vineyards	9,975
Acres in vines planted in the year.....	905
Bushels of apples gathered	15,918,794
Bushels of peaches gathered	2,251,878
Bushels of pears gathered	135,987
Pounds of grapes gathered	17,965,604
Gallons of wine	1,078,056

The product of the last five years was reported as follows:

TAXABLE LANDS, ETC.

TAXABLE LANDS IN OHIO IN 1874.

Number of acres cultivated, 7,670,333; in pasture, 4,956,975; wood-land, 4,887,579; other lands, unproductive and lying waste, 548,298; total acres owned, 19,526,715. The census report of 1870 gives the amount of acres at 25,312,937, being 5,958,311 more than returned by the assessors.

The following table shows the eleven counties having the largest number of acres cultivated, as compared with 1873:

The following counties have the largest number of acres of wood-land, as compared with 1873:

COUNTIES.	1874.	1873.
Darke	104,778	95,910
Washington	98,548	118,916

Putnam	96,430	85,764
Highland	96,827	77,628
Carroll	91,415	76,523

By the reports it appears that 67,355 acres of wood-land has been cleared in one year, and in Washington county 20,368.

These reports may be regarded as very incorrectly returned by the assessors. The number of acres is greater than returned by the census reports of 1870. The total acres of land on the grand duplicate of the State for taxation is 25,458,323. This amount exceeds that returned by the assessors 5,931,608 acres.

PORK PACKING.

PORK PACKING IN THE WEST.

The following statement is prepared by Sidney D. Maxwell, of the Cincinnati Merchants' Exchange. Mr. Maxwell says: "The reports from the various packing points have never before been so full and complete. The details have been returned with a degree of particularity which has reduced approximations to a small number. The report which is herewith submitted is thus, in an eminent degree, based on the actual returns of the packers, and the utmost circumspection has been used to guard against errors on the part of correspondents."

The following table shows the number of hogs packed in the several places in Ohio, also the aggregate number packed in the States named, during the winter season of 1874-75, compared with 1873-74, embracing the period between November 1st and March 1st:

^a Including debts of separate school districts.

^b Since 1873.

^c The city auditor reports the total bonded debt of Cleveland \$7,261,000 on the 1st of January, 1875.

By the above reports to the Auditor of State, and the reports from the several city auditors named, the following differences appear in the debts of the cities :

Cincinnati—

Auditor's report.....	\$9,422,704 83
Reported by city auditor to this office.....	17,235,500 00
More than reported to Auditor.....	\$7,812,795 17

Cleveland—

Auditor's report.....	\$2,238,880 44
Reported by city auditor to this office.....	7,261,000 00
More than reported to Auditor.....	\$4,922,119 56

Toledo—

Auditor's report.....	\$3,782,280 41
Reported by city authorities.....	2,832,254 00
Less than reported to State Auditor.....	\$950,026 41

The difference, as shown from the State Auditor's report, viz., \$950,-026.41, consists of special levies, such as taxes on property abutting on streets, etc., for improvement, which is not properly a part of the debt of Toledo.

These, added to the aggregate debt above stated from the Auditor's report, would make the total debt of the above-named cities \$32,665,279; showing an increase of amount reported to State Auditor in 1874 of \$16,776,167.

This increase is undoubtedly too large, arising from the fact that the reports to the State Auditor in 1874 were manifestly incorrect. These statements from the several city authorities do not include the debts for separate school districts, as in the Auditor's report.

NOTE.—Special. Where, in any case, the valuation, when multiplied by the rate of taxation specified, does not agree with the total amount of tax given, the difference is owing to the item of "other special taxes" being added into the total amount. The item itself, from its nature, cannot have a rate given.—AUTOPRO.

THE IRON TRADE.

The following interesting facts relating to the iron trade are extracted from the report of the Cincinnati Chamber of Commerce for 1875:

At the time of issuing the report of one year ago, it was hoped that the depression from which the iron interest had been suffering was at its worst—that bottom had been touched—and that the coming year would witness a reaction, which, of course, must in time ensue. These anticipations the events of the past year have proved to have been without reasonable foundation, for the declension in price, which had set in nearly two years before, still continued, though not at such a rapid rate. No. 1 hot-blast charcoal iron was quotable at the commencement of the commercial year at \$33.00 to \$34.00 per ton. This price continued until the opening of the following month, when a decline of one dollar was experienced. Early in November it had fallen to \$30.00 and \$32.00, and before the close of the month to \$29.00 and \$30.00. Late in December an additional decline was sustained, the quotation being \$27.00 to \$28.00. In February there was evidence of a little better feeling, and the market stiffened, the month closing with the quotation at \$28.00 to \$29.00. Prices then remained comparatively unchanged until early in August, when the market showed signs of further weakness, the quotation being \$27.00 to \$28.00, and so continuing until the close of the month. The average quotation per ton for the year of this class of iron was \$29.28.3, compared with \$39.21 in 1873-74, \$55.33 in 1872-73, and \$46.74 in 1871-72. From the commencement of the commercial year to the close, hot-blast charcoal iron No. 1 declined six dollars per ton, or about 18 per cent. It will thus be seen that iron, depressed and reduced as it had been the year before, had by no means reached the depth to which it was to plunge before the work of reaction should begin. During nine months of the commercial year of 1872-73 a decline of 19 per cent. had been sustained. In the following year 29 per cent. in loss of price had been met, and now came 18 per cent. additional, with the general inquiry as to whether there was really any end to this work of shrinkage. In less than three years this article of general consumption had declined from \$58.00 and \$59.00 to \$27.00 and \$28.00 per ton. The effect of this change on all branches in this department of manufactures, into which iron enters as an important element, could not be otherwise than serious. The consequences were briefly considered in the previous report. The history of the past year has been in several respects a repetition of the preceding period, or rather it has been a continuation of the same process of declension, shrinkage, and depression. The whole year has been one of great uncertainty. For the furnaces and mills to go on seemed like throwing money into a breach, which was steadily becoming wider and deeper, and to stop was to turn thousands of faithful men out of employment, committing their helpless families to beggary, and to submit to a great and ruinous depreciation in the value of property. One by one smaller furnaces went out of blast, but these found compensation in the larger furnaces, which had been commenced before the great decline had come, or that, with faith in the future, had been erected since, so that production had not been reduced to the extent that was anticipated. Both in pig and manufactured iron, the country has been buying only for its immediate wants, and the market has been declining. But while purchases of pig have been made only for present necessities, there has been a fair demand at the prices, and this from the rolling mills, manufacturers of agricultural implements, hardware, and almost all purposes save for the use of railroads. It is apparent that during the past six months most of the manufacturing establishments working iron have been running a fair average time. The complaint has been and is, not that there is not business, but that the margin of profit is too small for the capital and labor invested. In the manufacture of pig iron it is conceded that the business has been unprofitable, but it has

arisen from over-production. In view of the fact that the demand from railroads had not yet been revived, we were manufacturing beyond the wants of the country.

The immediate prospect for the future is not easily revealed. Of the ultimate result manufacturers seemed to have little doubt. The evils from which we have been suffering contain within themselves the correctives. The supply will finally accommodate itself to the demand, and, when that time comes, producers who have their business well systematized, and who manage economically, will be suitably compensated. Certainly, for a period at least, the time for prodigality has passed. The extravagant management engendered by high prices and excessive profits has given way to great business circumspection, which will, in time, not only reward manufacturers themselves, but will benefit the people by furnishing them supplies as low as they can be afforded.

The value of the business in pig iron, estimating the average price at \$29.28 per ton, would be \$3,432,348, in comparison with \$3,385,326 in the preceding year. The comparison for seven years would be about as follows:

1868-69.....	\$1,767,000
1869-70.....	2,439,000
1870-71.....	2,667,000
1871-72.....	6,500,000
1872-73.....	7,062,930
1873-74.....	3,825,326
1874-75.....	3,432,348

The following table shows the quotations for all kinds of iron, at the close of August, for two years, the same being per ton, save where otherwise specified:

MANUFACTURE OF PIG IRON.

It will be observed by the foregoing tables that, while the returns of the assessors show an increase of 27,465 tons over 1873, the returns from manufacturers are very deficient, compared with those of last year.

Circulars were sent to eighty-two manufacturers, who reported last year, soliciting a statement of their product for 1874. Of the eighty-two but thirty-two responded, which will be found in the statement below.

The tables presented below give but a small portion of the manufacture of iron, and articles manufactured, in whole or in part, of iron, in Ohio; and unless the manner of procuring these statistics can be improved, so that at least an approximation of the true amount can be obtained, it had better be abandoned. If it is desired that a proper exhibit of the manufacture of iron in Ohio should be obtained, I venture to suggest the propriety of authorizing the county auditor of each county to appoint a competent person in each of the iron manufacturing counties to obtain and report full statistics.

MANUFACTURES OF IRON.

The following tables are compiled from the assessors' returns for 1874, as compared with the returns of 1873.

The statement of articles here returned by the assessors, under the head of "Statistics of manufactures, water-crafts, mines, miners, and miscellaneous items," have more the appearance of a burlesque than reality, and would not be published in this report as representing Ohio in these branches of industry, were it not to show the utter absurdity of the present method of collecting this character of statistics of the State.

Only forty-five counties of the eighty-eight make any return in these branches, and among those making no return are some of the largest manufacturing counties in the State. Special attention is called to the tables representing the boats and barges built on Lake Erie and the Ohio River and tributaries. The total value returned is scarcely equal to the value of an ordinary steamboat.

The specie, as returned by the National Banks on October 1st of this year,* is classified as follows: Coin, \$3,364,569.74; United States coin-certificates, \$4,485,760; total, \$8,050,329.74. It will be observed that the amount of coin then held is less than at any time during the last six years—the amounts held by the banks of New York City and by all the banks of the country being, respectively, \$9,450,641 66, and \$13,190,615 48 less than the amounts held by them in October of last year.

This marked decrease in the amount of specie is believed to arise from the increased demand for commercial balances abroad, and from the special demand during the late monetary excitement in San Francisco.

*The average amount of specie held by the National Banks of the city of New York during the week ending Nov. 27 was \$14,425,000.

Authoritative statistics show that sixty-four millions of specie were exported during the first nine months of the present year, as against forty-four millions for the same period last year. The demand from San Francisco is believed to have been about five millions.

The Director of the Mint gives the following estimate of the movement of specie for the last three years, and of the amount in the country on June 30, 1874, and June 30, 1875:

Specie held by the Treasury and the National Banks June 30, 1872	\$98,389,864
Estimated amount in Pacific coast States and Territories at that date	20,000,000
Estimated amount held by bankers and others elsewhere	10,000,000

Total estimated amount of coin and bullion in the country June 30, 1875	\$167,614,803

The Director says that in this estimate no account has been taken of the amount of gold and silver consumed in the arts and manufactures from June 30, 1872, to June 30, 1875. It is difficult to obtain any reliable data upon this point. Whatever the amount may have been, it was reduced to a considerable extent by the plate, and other manufactured articles of gold and silver, which found their way to the melting-pot from the accumulated stock of the country. Making due allowance for the latter, the amount to be deducted from the estimated total may be stated at, say \$15,000,000; and, allowing \$10,000,000 for possible over-estimates, this would leave the amount of coin and bullion in the country on the 30th of June, 1875, about \$142,000,000. Of this total, from \$12,000,000 to \$15,000,000 consists of silver coin and bullion.

NUMBER OF PAUPERS AND COST, AND AMOUNT PAID FOR DEFENDING CRIMINALS.

The number of persons supported in the county infirmaries, and otherwise, from the poor fund, for the year ending March 31, 1875, with the cost, as reported to the county auditors, is as follows:

Number admitted to infirmaries in the year.....	4,770
Number supported in infirmaries	5,800
Otherwise supported from the poor fund.....	4,300
Total cost	\$546,903
Average cost per day, about.....	25 cts.

This shows an increase over last year of \$4,178.

It is difficult to determine the exact aggregate or average cost of the poor per day under the care of the county infirmaries from the reports, as other expenses are reported in the gross amount of costs; the above very nearly approximates the real cost.

NUMBER OF PAUPERS, COST, ETC., BY COUNTIES.

COUNTIES.	Number of paupers admitted to infirmary during the year.	Total number in infirmary.	Paupers otherwise supported by counties.	Total cost of keeping paupers in infirmary.	Average cost of each per day.	Amount allowed by court and courts for defending criminals.

The following table shows the number of marriages in each county during the year, except the counties of Brown, Cuyahoga, Geauga, Huron, Licking, Madison, Morrow, Ottawa, and Shelby, not returned. Estimating the above-named counties at the same numbers returned in 1874, the aggregate is 27,047, an increase of 369 :

The counties of Brown, Cuyahoga, Geauga, Holmes, Huron, Jefferson, Lucas, Madison, and Ottawa are not included in the number of births and marriages, not being reported.

The principal falling off in marriages is in Cuyahoga county. Last year that county returned 1,885; this year made no return.

The following shows the marriages, births, and deaths in the four seasons of the year ending March 31, 1875 :

SEASONS.	Marriages.	Births.	Deaths.
Spring.....	5,089	13,940	7,008
Summer.....	4,678	13,903	5,852
Fall.....	7,107	15,084	6,253
Winter.....	6,054	15,389	7,705
Totals	22,928	58,316	26,818

The aggregates of the above tables do not present the total numbers reported of marriages, births, and deaths, for the reason that the month is not reported in several counties where the aggregates are given.

The marriages are most numerous in fall, and least in summer.

Births are more numerous in winter and least in summer, though the difference is very small between spring and summer.

Deaths are more numerous in winter, and least in summer.

BIRTHS.

The reports of the Probate Judges from eighty-six counties of the State show the following number. No reports from Madison and Ottawa counties :

SEX.	1875.	1874.
White males	30,558	31,141
“ females	28,430	29,061
Colored males	540	545
“ females	540	484
Sex or color unknown	455	322
Totals	60,523	61,553

Ratio of births to one hundred persons living, 23.11 ; of persons living to one birth, 43.9.

The above shows one hundred and ninety-one decrease compared with 1874, including the numbers returned by Madison and Ottawa counties in that year. The returns are manifestly inaccurate in several counties, as will be seen by comparison. Cuyahoga county, with a population in 1870 of 132,010, returned in 1874 3,728 births. This year (1875) that county returns 1,243, a decrease of 2,485. Hamilton county, with a population of 260,370 in 1870, returns 1,113 births, and Franklin county, with a population of 63,019, returns 1,454. In 1874 Hamilton county returned 5,943, a decrease of 4,830.

In 1870 the reports of births in the State was 75,657, showing a loss in the reports by the assessors in four years of 15,045. At this rate, the assessors will soon depopulate the State. The best evidence that the population is largely on the increase from some cause, is that at the late election there were cast 595,248 votes, being 65,812 more than were cast at any previous election.

The following table shows the deaths reported in all the counties except Madison and Ottawa. It will be observed that the aggregate number of deaths is 749 greater than reported in the tables giving the diseases, etc. This table is probably more nearly correct in the aggregate deaths. Estimating Madison at 180, and Ottawa at 280, the number of deaths reported in 1873 and the aggregate deaths in 1874 are 29,376, an increase over 1873 of 620:

DIVORCES.

The reports of the clerks of the courts of common pleas for the year ending June 30, 1875, show 1,079 suits for divorce pending at the beginning of the year, and 1,829 brought within the year. The aggregate of the several reports show 1,718 decided, and 1,190 continued and pending. In carrying out the details, many of the clerks fail to state the disposition of the cases, so that it shows but 1,696 decided within the year.

There were 776 suits brought by the husband, and 1,732 brought by the wife, showing 423 suits in which the plaintiff or defendant is not designated.

The causes for which divorces were granted were as follows:

Adultery, committed by husband.....	143
" " wife.....	161
Absence and neglect of husband.....	420
" " wife.....	185
Cruelty of husband.....	186
" " wife.....	13
Drunkenness of husband.....	122
" " wife.....	9
Fraud of husband.....	9
" " wife.....	7
Miscellaneous causes by husband.....	38
" " " wife.....	6

The question of the custody of the children of divorced persons was raised in 370 cases, and 55 were given to the father, and 392 to the mother.

The ratio of the total number of divorces to marriages, in 1875, is 1 to 21.57, estimating the counties not returned same as last year. Adultery of husband, 1 to 189; adultery of wife, 1 to 167; absence and neglect of husband, 1 to 64; absence and neglect of wife, 1 to 146; cruelty of husband, 1 to 149; cruelty of wife, 1 to 2,254; drunkenness of husband, 1 to 221; drunkenness of wife, 1 to 3,004; fraud of husband, 1 to 3,004; fraud of wife, 1 to 3,864; miscellaneous causes by husband, 1 to 711; same by wife, 1 to 4,507.

Percentage of divorces granted for adultery, 23.4; absence and neglect, 46.5; cruelty, 15.2; drunkenness, 10; fraud, 1.3; miscellaneous causes, 3.3.
